ARTHUR S. IBERALL PUBLICATIONS

1944

Wildhack, W., and Iberall, A., Powder mineralogy. National Bureau of Standards Bull. No. 329, p. 65-

1947

Iberall, A.S. Linear Pressure Drop Flowmeters. National Bureau of Standards Report, 1947.

1948

Iberall, A.S. Effective 'Gamma' in isentropic expansion of real gases. J. Applied Physics, 19:997-999, 1948.

1949

Iberall, A.S. A novel recording accelerometer. Review of Scientific Instruments, 20(4):304-307, 1949.

1950

Iberall, A.S. Attenuation of oscillatory pressures in instrument lines. Research paper RP2115. J. Research, National Bureau of Standards, 45:85-108, 1950.

Iberall, A.S. Attenuation of oscillatory pressures in instrument lines. Trans. ASME, 72:689-695, 1950.

Iberall, A.S. Permeability of glass wool and other highly porous media. J. Research, National Bureau of Standards, 45:398, 1950.

1951

Iberall, A.S. Elastic contact transducer. National Bureau of Standards, Report, 1951.

Iberall, A.S. Fundamental considerations in the design of mobile pressure suits. National Bureau of Standards, Report to Dept. Navy, April 1951.

Iberall, A.S. Pressure drop in oxygen systems. NBS Report, Ref. 1, 1115, 1951.

1953

Iberall, A.S. Development of a subliming carbon dioxide hypsometer. NBS Report 2387, 1953.

[Iberall, A.S. Stability of a simple relief valve] [see Performance of the..., 1954]

1954

Iberall, A.S., A phenomenological basis for a generalized elastic theory of the solid state for application to structural design. Rand Development Corp. Report, 1954.

Iberall, A.S. Characteristics of slack diaphragms. ASME, Paper 54-A-195, 1954.

Iberall, A.S. Performance of the Chance Vought pressure relief valve as an illustration of analysis of dynamic stability. ARO Equip. Corp., Rept. DL-0012, 1954.

Iberall, A.S. Static flow characteristics of single and two stage spring loaded gas pressure regulators. Trans. ASME, 76:363, 1954.

1955

Iberall, A.S. A new method for the non-destructive testing of homogeneity of structural materials. Rand Dev. Report, 1955.

Iberall, A.S. A novel approach to high speed weighing. Rand Dev. Report, 1955.

Iberall, A.S. A tentative design theory for lift valve seats used in dead end regulation. Rand Dev. Report, 1955.

Iberall, A.S. and D.K. Platt. Bumper stop design, for Cleveland Pneumatic Tool Co., Rand Dev. Report, 1955.

Iberall, A.S. Flat plate burner design for Westinghouse Electric, Rand Dev. Two Reports, 1955.

Iberall, A.S. Flat plate burner design for Westinghouse Electric, Rand Dev. Two Reports, 1955.

1956

Iberall, A.S. Color matching of paints for Sherwin-Williams, Rand Dev. Report, 1956.

Iberall, A.S. Measurement of paint viscosity in the can for Sherwin-Williams, Rand Dev. Report, 1956.

Iberall, A.S. Preliminary considerations for an end point control of a drying cycle in a clothes dryer. Whirlpool-Seeger Corp., 1956.

Iberall, A.S. Study of some fundamental considerations in the design of screw fasteners and locking devices, Design, classification of fastenings, for Illinois Tool Works, Rand Dev. Report, 1956.

1957

Iberall, A.S. Development of a full pressure altitude suit. Rand Dev. Report to USAF, WADC TR 58-236, 1957.

Iberall, A.S. Philosophy for mid-twentieth Century Man. Unpub. ms., 1957.

1958

Iberall, A.S. Basic instrumentation, invited talk, Case Inst. Tech., Feb. 1959.

Iberall, A.S. Bumper stop theory for Ohio Brass Co., Rand Dev. Report, 1958.

Iberall, A.S. Solving the equations of hydrodynamics. [Freiburg Boundary Layer Symp., 1958]. In H. Gortler (ed.), Boundary Layer Research, NY: Springer-Verlag, 1958.

Iberall, A.S., Development of a full pressure altitude suit. Report to USAF, WADC, TR 58-236, June, 1958.

1959

Iberall, A.S. Thermoregulation of human; Mobile pressure suits, invited talk, Natick Labs., 1959.

1960

Iberall, A.S., An applied physicist looks at the frontiers of chemical engineering, invited talk, Case Inst. Tech., 1960.

Iberall, A.S. Human body as an inconstant heat source and its relation to clothes insulation, Part 1 – Descriptive Models of the Heat Source. J. Basic Engr., Trans. ASME, 82:96-102, 1960

Iberall, A.S. Human body as an inconstant heat source and its relation to clothes insulation, Part 2 – Experimental Investigation into the Dynamics of the Source. J. Basic Engr., Trans. ASME, 82:103-112, 1960

Iberall, A.S. Human body as an inconstant heat source and its relation to clothes insulation, Part 3 – Precise Measurement of Clothes Insulation During Controlled Operation of the Human. J. Basic Engr., Trans. ASME, 82:513-527, 1960.

Iberall, A.S., Problems of education and science, USA, 1960, Unpub. ms, 1960.

Iberall, A.S. and S.Z. Cardon. Study of research needs in protecting the quality of waters in the USA. Rand Dev. Report to HEW, Contract SAPH 76238, 1960.

1961

Iberall, A.S. A physical critique of the description of thermoregulation in the human. Proceedings of the 4th Intl. Conf. Med. Electr., 1961.

Iberall, A.S. A study of the engineering aspects of life sciences for military needs. 4 Rand Dev. Reports to US Army, Contract DA-49-183-MD-2152, 1961.

Iberall, A.S. A study of the engineering aspects of life sciences for military needs. 4 Rand Dev. Reports to US Army, Contract DA-49-183-MD-2152, 1961.

Iberall, A.S. A study of the engineering aspects of life sciences for military needs. 4 Rand Dev. Reports to US Army, Contract DA-49-183-MD-2152, 1961.

Iberall, A.S. A study of the engineering aspects of life sciences for military needs. 4 Rand Dev. Reports to US Army, Contract DA-49-183-MD-2152, 1961.

Iberall, A.S. Fundamental engineering considerations in the application of screw fasteners, 2 Reports to Industrial Fasteners Inst., Rand Dev. Report, Cleveland, 1961 (issued as a national handbook by the Institute).

Iberall, A.S. Fundamental engineering considerations in the application of screw fasteners, 2 Reports to Industrial Fasteners Inst., Rand Dev. Report, Cleveland, 1961 (issued as a national handbook by the Institute).

Iberall, A.S., Human body as an inconstant heat source. Trans. ASME Ser. D, J. Basic Eng., 82:96, 1961.

Iberall, A.S., Human body as an inconstant heat source. Trans. ASME Ser. D, J. Basic Eng., 82:513, 1961.

Iberall, A.S., Human body as an inconstant heat source. Trans. ASME Ser. D, J. Basic Eng., 82:1103, 1961.

Iberall, A.S. Some fundamental considerations in the drying of clothes in modern gas home dryers for Amer. Gas Assoc., Rand Dev. Report, 1961.

1961-62

Iberall, A.S., S.Z. Cardon, and H. Schneider. A study of the physical description of the hydrology of a large land mass pertinent to water supply and pollution control. Rand Dev. Report 1 to HEW, Contract SAPH 78640, 1961-62.

Iberall, A.S., S.Z. Cardon, and H. Schneider. A study of the physical description of the hydrology of a large land mass pertinent to water supply and pollution control. Rand Dev. Report 2 HEW, Contract SAPH 78640, 1961-62.

Iberall, A.S., S.Z. Cardon, and H. Schneider. A study of the physical description of the hydrology of a large land mass pertinent to water supply and pollution control. Rand Dev. Report 3 to HEW, Contract SAPH 78640, 1961-62.

Iberall, A.S., S.Z. Cardon, and H. Schneider. A study of the physical description of the hydrology of a large land mass pertinent to water supply and pollution control. Rand Dev. Report 4 to HEW, Contract SAPH 78640, 1961-62.

1962

[Iberall, A.S. and S.Z. Cardon. Analysis of the dynamic systems response of some internal human systems. Clearinghouse for Federal Scientific and Technical Information; Reports to NASA: May 1962 CR-129, Oct. 1964; CR-141, Jan. 1965; CR-219, May 1965; Interim Report, Dec. 1965.] see 1964-1965

Iberall, A.S. and S.Z. Cardon. A study to develop improved water pollution measurement techniques. 3 Rand Dev. Reports to Public Health Services, Contract PH-86-62-106, 1962.

Iberall, A.S. and S.Z. Cardon. A study to develop improved water pollution measurement techniques. 3 Rand Dev. Reports to Public Health Services, Contract PH-86-62-106, 1962.

Iberall, A.S. and S.Z. Cardon. A study to develop improved water pollution measurement techniques. 3 Rand Dev. Reports to Public Health Services, Contract PH-86-62-106, 1962.

Iberall, A.S. Fallout shelter material investigation. Report to Flinkote, 1962.

Iberall, A.S. Study of an electronic timer. Rand Dev. Report to Diamond Ord. Fuze Lab., Contract DA-49-186-ORD-1052, 1962.

1962-1963

Iberall, A.S. Studies for an accurate low frequency shock resistant oscillator. Army Contract DA-49-186-ORD-1089, 1962.

Iberall, A.S. Studies for an accurate low frequency shock resistant oscillator. Army Contract DA-49-186-ORD-1089, 1963.

1962-1963

Iberall, A.S. A new class of inertial guidance systems. Report to Office of Naval Research (ONR), Contract NONR 3778(00), 1962-63.

Iberall, A.S. A new class of inertial guidance systems. Report to Office of Naval Research (ONR), Contract NONR 3778(00), 1965-66.

Iberall, A.S. A new class of inertial guidance systems. Report to Office of Naval Research (ONR), Contract NONR 3778(00), 1968-69.

1963

Young, E. and A.S. Iberall. A direct description of the transmission of pulses in arterial trees. Proc. Ann. Conf. Engr. Med. Bio., 8, 50, 1963.

Iberall, A.S. Contributions toward solution of the equations of hydrodynamics. Part A. The continuum limitations of fluid dynamics. Report to ONR, 1963. [next in series is 1965]

Iberall, A.S. Science as a profession in the USA (A summary). Unpub. ms, 1963.

1963-64

Iberall, A.S., Mathematical modeling for the mortality effects of various radiation dosage schedules, 3 reports to AEC, Contract AT(11-1)-1254, 1963-1964.

Iberall, A.S., Mathematical modeling for the mortality effects of various radiation dosage schedules, 3 reports to AEC, Contract AT(11-1)-1254, 1963-1964.

Iberall, A.S., Mathematical modeling for the mortality effects of various radiation dosage schedules, 3 reports to AEC, Contract AT(11-1)-1254, 1963-1964.

Iberall, A.S., S.Z. Cardon and J. Ellis. Studies of principles of clothing design to minimize interference with body motion. 3 Reports to Natick Labs., US Army Contract DA-19-129-AMC-45(R), 1963-64.

Iberall, A.S., S.Z. Cardon and J. Ellis. Studies of principles of clothing design to minimize interference with body motion. 3 Reports to Natick Labs., US Army Contract DA-19-129-AMC-45(R), 1963-64.

Iberall, A.S., S.Z. Cardon and J. Ellis. Studies of principles of clothing design to minimize interference with body motion. 3 Reports to Natick Labs., US Army Contract DA-19-129-AMC-45(R), 1963-64.

1964

Iberall, A.S. Control in biological systems - A physical review. Ann. N. Y. Acad. Sci., 117:445-515, 1964.

Iberall, A.S. Human temperature regulation - A 1964 model. Proceedings of 17th Ann. Conf. on Engr. in Med. and Bio., 1964.

Iberall, A.S. The use of lines of non-extension to improve mobility in full-pressure suits. Report to USAF, AMRL-TR-64-118, 1964.

1964-1967

Iberall, A.S. and S.Z. Cardon. Analysis of the dynamic systems response of some internal human systems. Clearinghouse for Federal Scientific and Technical Information; Reports to NASA: CR-129, Oct. 1964.

Iberall, A.S. and S.Z. Cardon. Analysis of the dynamic systems response of some internal human systems. Clearinghouse for Federal Scientific and Technical Information; Reports to NASA: CR-141, Jan. 1965.

Iberall, A.S. and S.Z. Cardon. Analysis of the dynamic systems response of some internal human systems. Clearinghouse for Federal Scientific and Technical Information; Reports to NASA: CR-219, May 1965.

Iberall, A.S. and S.Z. Cardon. Analysis of the dynamic systems response of some internal human systems. Clearinghouse for Federal Scientific and Technical Information; Reports to NASA: Interim Report, Dec. 1965.

Iberall, A.S. and S.Z. Cardon. Analysis of the dynamic systems response of some internal human systems. Clearinghouse for Federal Scientific and Technical Information; Reports to NASA: Aug. 1966 6th rept..

Iberall, A.S. and S.Z. Cardon. Analysis of the dynamic systems response of some internal human systems. Clearinghouse for Federal Scientific and Technical Information; Reports to NASA: CR-770. May 1967

Iberall, A.S. and S.Z. Cardon. Analysis of the dynamic systems response of some internal human systems. Clearinghouse for Federal Scientific and Technical Information; Reports to NASA: CR-858, July 1967.

1965

Iberall, A.S. Advanced technological planning for interdisciplinary physical research. Report to ARO, Contract DA-49-092-ARO-45, 1965.

Iberall, A.S. Contributions toward solution of the equations of hydrodynamics. Part B. Primitive solutions for the fluctuating components of turbulent flow between parallel plates. Report to ONR, 1965.

Iberall, A.S., Metabolic control in the mammalian microcirculation, IFAC Symposium, London, 1965.

Iberall, A.S. and S.Z. Cardon. Regulation and control in biological systems. In: K. Kaneshige and C. Izawa (Eds), Proceedings of IFAC Tokyo Symposium on Sys. Engr. for Control Sys. Design, Toyko: Science Council of Japan, 1965.

1965-66

[Iberall, A.S. A new class of inertial guidance systems. Report to Office of Naval Research (ONR), Contract NONR 3778(00), 1965-66.] see 1962-63
