

# Workshop on the Organism-Environment System

May 15-16

BOUS 160/161 (Thursday) and BOUS 378A (Friday)

Throughout 2007-2008 CESPAs is celebrating its 20th anniversary at UConn. Thursday May 15 features a workshop from 2:00 to 5:30 on the Organism-Environment System. Speakers include:

**Susan Oyama** (Graduate Center, CUNY)

*Friends, Neighbors, and Boundaries*

**Barry Smith** (University of Buffalo)

*The Environment Ontology*

**Robert Lickliter** (Florida International University)

*The Epigenetic Revolution: Validation of the Organism-Environment System*

**David Miller** (University of Connecticut)

*The Provenance and Control of Behavior: Simplistic Answers are Doomed to Failure*

**Timo Järvillehto** (University of Oulu, Finland)

*Commentator for each talk*

Each talk will be 20 minutes with 10 minutes for questions. After all speakers have been heard from, there will be an open discussion.

◆ On Friday 4:00-5:30 in BOUS 378A, **Timo Järvillehto** will be the PAW speaker. His title is “**The theory of the organism-environment system as a basis for experimental work in psychology**”
